The Director  
U.S. Fish and Wildlife Service  
Department of the Interior  
Washington 25, D.C.

Attention: Mr. Sidney Shapiro

Dear Sir:

I am always hesitant about singling out the work of any one of the many contributors whose combined efforts are responsible for the National Intelligence Survey, but I feel specific mention should be made of the excellent material being produced for the Economic Chapter of the National Intelligence Survey by the Fish and Wildlife Service. My staff not only finds that this material is outstanding as to consistency and accuracy in statistics, but considers that these contributions consistently are achieving a high level of overall professional competency. It is upon this caliber of effort that the stature of the National Intelligence Survey must be based, and I am happy to express this appreciation of the contribution of the Fish and Wildlife Service to the National Intelligence Survey Program.

Sincerely,
